

Our mission is to be the leading provider of specialized construction professional insurance and pollution coverage for construction-related industry exposures. In addition, we offer leading edge risk management services so that our insureds continue to be best-in-class in avoidance of potential claims.

Better Built

Our Company

Berkley CP was founded by a team of insurance professionals with a passion for the construction industry and deep roots in construction professional underwriting, risk management and claims. We offer a unique blend of innovative product ideas backed by the resources of W. R. Berkley Corporation, whose insurance subsidiaries are rated A+ (Superior) by A.M. Best Company.

“Founded by a team of professionals passionate about the construction industry.”

How We're Different

We are entirely dedicated to serving the professional and pollution liability insurance needs of the construction industry and we have the authority to quickly provide solutions that best serve our clients' needs.

Our team is comprised of the original thought leaders in the protective insurance space and we have serviced our target market multiple times through numerous phases of the economic and construction cycle.

We are the decision makers in our business and we take pride in our leadership of the construction professional liability marketplace.

Who Are Our Clients?

Our clients are intelligent business people who consider the individual merits of each insurance policy and choose a solution based on the quality and integrity of the total program.

Our clients value financial stability and pricing consistency offered through their insurance provider as that enables them to predict their business costs with enhanced certainty.

Our clients' purchasing habits are centered around personal relationships and experience with an individual underwriter. They want underwriters who understand their business and have the authority to make decisions and act quickly.

Our clients demand and deserve exceptional claims service. They do not want to barter with an insurance provider regarding coverage determination—rather, they want a straight-forward, responsive partner committed to resolving their claims fairly, efficiently and effectively.

We Offer Several Distinct Programs to Meet the Needs of the Construction Industry:

- **PERFORM:** Annual renewable policies for contractors either on a Primary or Excess basis. Also available on a Project Specific basis for various forms of Project Delivery including Design-Build, IPD and P3.
- **OPUS:** A product designed to protect project owners from subcontracted professional and pollution liability exposure, which includes an updated proactive version of the traditional protective indemnity claims resolution process. Additional policy enhancements were designed to meet the ever evolving and complex requirements of the construction industry.
- **HARMONY:** An excess policy that sets the benchmark by which all other excess insurers should follow with a tone of cooperation and discourse to resolve disputes quickly and effectively to minimize the disruption of a claim.
